

“This solution brings together all of the elements needed to **vastly improve efficiency and compliance**. It's a complete job management methodology that **seamlessly integrates with how professionals work in the real world**.”

Greg Hayes

Director of Knowledge Shop and Hayes Knight

'Join the dots' across your client work with absolute confidence

One of the biggest challenges for tax and accounting professionals is navigating their way through endless documents and a puzzling array of constantly changing legislations and regulations in order to comply with the latest ethical and legal standards.

Now, this is all about to change with the new **CCH Engagement Tax and Accounting Workpapers**.

What is it?

- Developed by CCH, the world's largest provider of tax, accounting and audit information, software and services.
- Workpapers authored by *Knowledge Shop*, a leader in knowledge management for professional practices since 2001.
- It is **not** a content solution. It is **not** a software application. It **is** a marriage of both.
- Directly links to constantly updated and relevant Legislation / Guidance Notes, external websites such as the ATO and ComLaw.gov.au. Also links to IntelliConnect™ (CCH's online Content Platform).

What are the benefits?

- Work more *efficiently*, more *accurately*, more *seamlessly* and more *collaboratively*.
- Significantly *reduces the risk* of non-compliance and also *time and costs*.
- *Powerful and intuitive* - Integrates with how you currently work.
- Provides *greater control* over internal processes ensuring a better quality outcome.
- Automatically documents internal processes with a *full history of who did what*.
